

**THE COMMUNITY FOR
HUMAN DEVELOPMENT**

WORLD NEWSLETTER

From different parts of the world, we extend a cordial greeting to you as the new global coordination team. It fills us with joy to be part of this space and to be able to serve as a bridge to publicize the diversity of activities that are being carried out.

At a time when violence, resignation and lack of meaning seem to be reproduced, and when false hopes in a decadent system have already fallen, we see an opportunity for our proposal to reach all people. For those who, caught in the whirlwind of events, seek answers in the depths of their conscience, we believe that it is time to promote humanism more strongly.

We celebrate the opportunity to share initiatives that bring us closer to these ideals and to continue creating spaces where we can manifest the best of ourselves.

We extend an invitation to all people who promote and work to establish the culture of Non-violence to join as full members of the community for human development. Together, we can strengthen the culture of Non-violence by promoting a new sensitivity that opposes the various forms of violence and as a force capable of changing the current direction of events towards a more humane path.

Receive an affectionate hug of peace, strength and joy.

"It is faith in our destiny, it is faith in the justice of our action, it is faith in ourselves, it is faith in human beings, the force that animates our flight." - Silo, 2004.

ACTIVITIES OF THE FUENCARRAL AND BARRIO DEL PILAR BASE TEAM

We celebrated the Summer Season meeting in Toledo Park with many friends and we took care of collecting some signatures required so that the Humanist Party could present itself in the General Elections of Spain in the month of July. A goal achieved, we were there!!!

We continue with the weekly meetings, two in the Fuencarral neighborhood and one in the Pilar neighborhood with training topics from the Community Book and topics from The Silo Message. We have published 1,000 poster-type copies with the Principles of Valid Action and the Path that we will distribute little by little.

There is an activity on Sundays to plant trees for two hours, in arid lands. Leaving a short time for personal reflection.

NON-VIOLENCE CAMPAIGN MADRID

During the month of September we are carrying out a campaign to spread Non-Violence in the Neighborhood where we participate in various action fronts of the Humanist Movement in addition to our Community group.

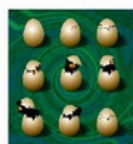

During the campaign we are carrying out different activities: interviews on the street, dissemination through posting posters, distribution of leaflets, publication on social networks, and workshops where we work on different tools for personal and social change. In addition, we have held a Videoforum with the Video of the History of Nonviolence where we discuss the history and future of nonviolence, in an inclusive and tolerant atmosphere that provided us with learning.

Now we are going to celebrate October 2, which we will hold in a square in the Tetuán neighborhood with a neighborhood meeting in which we will have the opportunity to record a live Podcast, make clay figures that symbolize non-violence, and build the bridge together. of Non-Violence using brik containers that we are asking all attendees to bring.

>>> VALID ACTION MADRID

Principios de la acción válida

1. Ir contra la evolución de las cosas, es ir contra uno mismo.
2. Cuando fuerzas algo hacia un fin, produces lo contrario.
3. No te opongas a una gran fuerza. Retrocede hasta que aquella se debilite, entonces, avanza con resolución.
4. Las cosas están bien cuando marchan en conjunto, no aisladamente.
5. Si para ti están bien el día y la noche, el verano y el invierno, has superado las contradicciones.
6. Si persigues el placer, te encadenas al sufrimiento. Pero en tanto no perjudiques tu salud, goza sin inhibición cuando la oportunidad se presente.
7. Si persigues un fin, te encadenas. Si todo lo que haces, lo realizas como si fuera un fin en sí mismo, te liberas.
8. Harás desaparecer tus conflictos, cuando los entiendas en su última raíz, no cuando quieras resolverlos.
9. Cuando perjudicas a los demás quedas encadenado. Pero si no perjudicas a otros puedes hacer cuanto quieras con libertad.
10. Cuando tratas a los demás como quieres que te traten te liberas.
11. No importa en qué bando te hayan puesto los acontecimientos, lo que importa es que comprendas que tú no has elegido ningún bando.
12. Los actos contradictorios o unitivos se acumulan en ti. Si repites tus actos de unidad interna, ya nada podrá detenerte.

Looking ahead to October 2, we are preparing a live recording of our podcast The Möbius Strip, this time about the principles of valid action. To do this, we are carrying out street operations in which we distribute pamphlets with the 12 principles, we chat with people and invite them to participate in our meetings and in the celebration of the Day of Nonviolence. Regarding the proposed activity, we want you to choose a principle from the "tree of life" on which you will be exposed that day, meditate on it briefly and then tell us your reflection so we can record it and include it in the podcast.

ACTIVITIES FOR NON-VIOLENCE ALCOBENDAS

In Alcobendas we have launched different activities for non-violence, psychophysics workshops, learning to think and meditation for young people, in which we show what our tools are and how they can help us on a daily basis.

Workshops on the subject are also held, in which we work with different materials following the evolutionary pace of human beings with them and how they resonate in each one.

Views of Toledo Park are also made to do internal work.

The different demonstrations that have been launched for public health have been supported

»»» PARTICIPATION IN THE NONVIOLENCE FESTIVAL - ROME

On the occasion of the International Day of Nonviolence, the Community for Human Development - Ahimsa, Rome participates in the creation of the NONVIOLENCE FESTIVAL, an event to talk and discuss the topic of Nonviolence in the name of multiculturalism and inclusiveness. It will also be the occasion for the launch of the activities of the promoting committee for the Third World March for Peace and Nonviolence, which will begin its journey on 2 October 2024 from Costa Rica and which will pass through Italy in November of the same year.

The event promoted by the humanist association Energia per i Diritti Umani has already gathered many members among associations and entities including Pressenza, Forum SAD, Questaèroma, La Comunità per l' Sviluppo Humana, Multimage Editore, Lorusso Editore, Assopace Palestina, and others.

On this occasion, in addition to relaunching the project for schools and municipal libraries "The Bookshelf of Nonviolence", a workshop will be created for all ages on THE PRACTICE OF THE GOLDEN RULE, to learn how to apply the only rule capable to free ourselves from violence and the suffering linked to it: "When you treat others as you want to be treated, you free yourself"

VIRTUAL CYCLES OF PERSONAL DEVELOPMENT WORKSHOPS

Practical workshops that, through reflection on one's own life and group exchange, facilitate understanding of the relationship we establish with ourselves: with our body, some of its aspects, what we think about ourselves, the ability to regulate our own behavior and/or some of our internal processes. These elements condition our present, taking away our possibilities of choice and free action.

In them, a personal work is proposed, an experience, which results in the strengthening of the will to change and a greater regulation of the factors that affect one's own development, ordering the present activities, to be more effective, more determined, more assertive and win in reality criteria.

It is aimed at women and men over 16 years of age. They are free and last 2 hours, via Zoom.

This August 6, he urges us for the revolution that jumps above nothing, and that collectively rediscovers the path in the nearest future that allows us to leave pre-human history behind.

That warmly human future is what gives meaning to the memory, to the commemoration that brings us together today, and that strengthens our ties, which paradoxically, opens up the infinite options that our descendants will explore.
